Trinity College Comprehensive Foundation Studies Program

The Trinity College Comprehensive Foundation Studies program allows students from some countries to commence at Trinity College at a different phase of their secondary schooling. It also allows students requiring additional preparation in mathematics to be considered.

Students remain in the same cohort throughout the 40-week program, fostering a sense of group cohesion and improving pastoral and educational outcomes. The program will provide flexibility in catering for students with varying academic backgrounds, ensuring they are ideally prepared for transition to the University of Melbourne. Students will be better equipped to engage in their higher education studies from day one of their degree.
