

NON STUDENT VISA HOLDERS

This letter concerns important information for Non-Student Visa holders regarding the policy of the University of Melbourne towards the admission of Australian Citizens or Permanent Residents to the University.

Given that you no longer hold a Student Visa, it is important for you to understand the following.

If your Permanent Residency/Citizenship status is granted during the course of your studies at Trinity the following should be carefully considered:

1. The University does not guarantee undergraduate places to Trinity students who are Australian Citizens or Permanent Residents.
2. You must apply to the University via the Victorian Tertiary Admissions Centre. For details of VTAC, please follow this link: <http://www.vtac.edu.au/>.
3. If you successfully complete the Trinity College Foundation Studies program and apply through VTAC to the University of Melbourne, you will be eligible to compete for a Commonwealth Supported Place (CSP) at the University.
4. Your application to the University of Melbourne will reflect your position as an Australian Permanent Resident or Citizen and therefore you will be competing with other Australian Permanent Residents and Citizens.

Overseas Student Health Cover (OSHC) - Please note that the OSHC you currently hold is only available for Student Visa holders. You are able to obtain a refund by visiting the Worldcare Office located at the University of Melbourne. It is strongly desirable for you to find another health cover whilst you are living in Australia. Please discuss this with the Worldcare team or visit the following website https://www.oshcallianzassistance.com.au/member_student/login.aspx for assistance.

If you have any further questions regarding your academic pathway, please contact Dr. Tan Hooi Cheng (Academic Administrations) on unipath@trinity.unimelb.edu.au.
